DEFINITIONS OF TERMS FOUND IN THIS SCHEDULE

One Cultivar means one cultivated variety – e.g., the ‘Peace’ Rose

Stem and Cut: A **Stem** is defined as an original new growth which carries 1 bloom or 1 bud and has received no check from pinching, stopping, or pruning from the time of starting into growth to flowering. Disbudding is not regarded as a check to growth under this definition. The stem should be proportionate in thickness and length to the size of the bloom it supports. A **Cut** is similar to a stem: an original new growth that carries 1 bloom and bud or buds, or more than 1 bloom with or without side buds.

Distinct means ‘different’: i.e., roses of the same type or classification such as Exhibition HT roses, but in different colours with a different cultivar name (e.g., ‘Peace’, ‘Moonstone’ & ‘St Patrick’).

NND means “not necessarily distinct” (or different) which allows the exhibitor to mix or match varieties in the exhibit to suit the available roses (e.g., 3 Stems NND would allow a choice of three roses of the same cultivar (3 ‘Moonstone’ HT roses); two of the same cultivar plus one different (2 ‘St Patrick’ HT roses plus 1 ‘Mr Lincoln’ HT rose); or three totally different cultivars of the same variety (e.g. 1 ‘Seduction’, 1 ‘Moulin Rouge’ and 1 ‘Peach Profusion’ Floribunda roses.

Stem Count is determined at the point of emergence of the stems from the top of the containers and must be clearly visible (be careful to ensure it is free of any leaf matter that might obstruct the judges’ view) – this is not an issue for vase exhibits with multiple cuts or stems of roses that cannot be counted without dismantling the arrangement.

SHOW CONDITIONS OF ENTRY

1. The Auditorium will be open for exhibitors at 6:30am Saturday. All exhibits must be staged by 9:15am, when all exhibitors must leave the exhibition area.
